FACTS AT A GLANCE

- Medical search engine and communication platform in one
- Each user adapts the search engine to his or her individual needs
- Access to countless medical sources and to expert knowledge
- Only reliable, independent sources, without editorial changes
- Literature research and medical self-study is measurable and provable
- More scientific and application data on medicinal products
- Closed chat room for the exchange of experience and knowledge
- Messenger service for direct contact with pharma medical departments

GAINING TIME AND SECURITY

Digital Doctor House is the first platform for extensive networking of medical knowledge for doctors and pharmacists.

A search engine, a chat room and a messenger service are the tools with which users efficiently find, store and exchange information.
